To Whom It May Concern

**RE: Passaglia Concrete Restoration & Repair Ltd. – Letter of recommendation**

---

Scott Construction and Scott Special Projects Ltd. have had the pleasure of working with Passaglia Concrete Restoration & Repair Ltd. on several projects since April, 2010.

Our first experience with PCR was on a project in Vancouver which required extensive concrete repairs to the outside of a 34 storey hotel tower. The value of the work was in excess of \$250,000 but the quality and value to our client was exceptional. The crew provided to our site worked diligently, efficiently and was responsive to our scheduling needs. PCR respected and adhered closely to our safety program without any incidents.

We have called Passaglia to help with several other projects including the Georgia Hotel. They have always provided a consistently high level of service and quality and we will continue to use their services on future work with the Scott group of companies.

Regards,

**SCOTT SPECIAL PROJECTS LTD.**
